

Vicon Nexus regulatory information

The following topics contain regulatory information relating to Vicon Nexus. For full regulatory information relating to your Vicon hardware, see the documentation that was supplied with your Vicon system.

- [ISO certification](#)
- [Medical devices directive](#)

Important

Vicon IMUs are supported for use with Nexus for research purposes only. For full sensor safety and regulatory details, see the *Vicon IMU Sensor Safety and Regulatory Information*.

To connect IMUs in Nexus 2.9, you must update them to 1.3 firmware or later, using the IMeasureU Research app, which is available from the App Store.
