

Creating labeling skeleton templates (VSTs)

About this guide

The following topics guide you step-by-step through the process of creating a custom labeling skeleton template (also known as a Vicon Labeling Skeleton Template, or VST) with Vicon Nexus.

- [About labeling skeleton templates](#)
- [Create a labeling skeleton template](#)
- [Troubleshooting labeling skeleton templates](#)

Related Nexus 2 videos, [Building a Custom VST](#) and [Using a custom VST](#), are available on YouTube.
